

DIGITAL MINILAB SERVICES
Archival Photographic Prints

Prints from Digital File

SERVICE TIME 3 days

We use Fujicolor Crystal Archive paper for all our minilab printing in a range of gloss, lustre or matte finish. 5mm white borders are available for no extra cost.

SPECIAL NOTES ON PRINTING FROM DIGITAL FILE

Vision Imagelab has a selection of 2 different digital printers for you to choose from. Each printer has slightly different attributes and require files to be set up differently for print. Please use the information below to help you choose your ideal printer and file set up specifications.

PRINTER	Kodak RP30	Fuji Frontier
Colour Space	Adobe RGB 1998	sRGB
Resolution	300 dpi	300 dpi
File Format	8 bit JPEG or PC TIFF	8 bit JPEG or PC TIFF
Colour Attributes	Warm skin tones, medium contrast	Vibrant blues & greens, soft contrast
Sharpness	Very sharp	Standard sharpness
Colour Adjustments Available	Yes	Minimal

Please set up orders which require different sizes, quantities or paper finishes in a folder structure as demonstrated here:

Prints from Digital File - Bulk Discounts

Prints do not have to be multiple copies of the same file to qualify for the bulk discount - there can be as many different files as there is prints, as long as they are the same size and paper surface. Please note that if files are not set up as noted above a surcharge may be incurred. ★ **A manual colour, density, contrast and saturation adjustment service is available for 25% extra. Vision Imagelab strongly advises the use of this service as redos will not be available without it.**

PRINT SIZE	1 OFF	2 OR MORE	20 OR MORE	50 OR MORE	100 OR MORE
3.5 x 5 in	1.45	1.30	0.90	0.80	0.50
